

CSI Key Performance Indices – UltraTech Cement Ltd.

KPI		FY 2016-17	
A	Climate Protection (excludes Captive Power)	Ultratech	Ultratech + Star Cement Co. LLC*
i	CO ₂ emissions – Gross (Million tonnes)	30.72	32.95
ii	CO ₂ emissions – Net (Million tonnes)	30.56	32.77
iii	Specific CO ₂ emissions – Net (kg/tonne cementitious material)	627.52	632.09
iv	Target reduction for CO ₂	Reduction in CO emission intensity by 25% from FY 2005-06 level by FY 2020-21	
v	Independently verified CO ₂ data	Externally verified	Externally verified
B	Fuels and Raw Materials		
i	Specific heat consumption of clinker production (MJ/tonne clinker)	2965	2966
ii	Total Alternative Fossil Fuel Rate (% of thermal energy consumption)	2.20	2.30
a	Alternative Fuel Rate Non Biomass (% of thermal energy consumption)	1.8	1.9
b	Biomass Alternative Fuel Rate (% of thermal energy consumption)	0.4	0.4
iii	Alternative Raw Materials Rate (% total raw materials for cement production)	16.58	13.58
iv	Clinker/ Cement Ratio (%)	76.2	76.8
C	Health and Safety		
i	No. of fatalities (directly employed)	1	1
ii	No. of fatalities (indirectly employed)	2	2
iii	No. of fatalities (involving 3rd parties)	0	0
iv	No. of fatalities per 10,000 directly employed	0.99	0.95
v	Lost Time Injuries (LTIs) per 1million man-hours (directly employed)	0.40	0.38

D Emissions Reduction			
i	NO _x emissions (tonnes/year)	64642	67682
ii	SO ₂ emissions (tonnes/year)	4275	4316
iii	Dust emissions (tonnes/year)	1544	1630
iv	Specific NO _x emissions (g/tonne clinker)	1715.32	1676.04
v	Specific SO ₂ emissions (g/tonne clinker)	113.44	106.88
vi	Specific Dust emissions (g/tonne clinker)	40.97	40.36
1	Target reduction for NO _x	As per the regulatory compliance by the State Pollution Control Board	
viii	Target reduction for SO ₂		
ix	Target reduction for Dust		
x	% Clinker produced with monitoring of major and minor emissions	Major emissions - as in the next row. Minor emissions - measured only on sample basis if hazardous wastes are used as fuel.	
xi	% Clinker produced with continuous monitoring of major emissions - NO _x , SO ₂ , Dust	Dust – 100%	Dust – 100%
		NO _x ,SO ₂ – 100%	NO _x , SO ₂ – 100%
E Local Impact			
i	% of sites with quarry rehabilitation plans in place	100% Integrated sites	92.86% Integrated sites
ii	% of sites with community engagement plans in place	100% Integrated sites	92.86% Integrated sites
iii	No. of active sites where biodiversity issues are addressed	13	13
iv	No. of active quarries within, containing or adjacent to areas designated for their high biodiversity value	NIL	NIL

* Data of Star Cement Co. LLC includes the operations at Ras Al Khaimah, Ajman and Abu Dhabi in UAE, Bahrain and Bangladesh.
