Method used to account for ESOS – Intrinsic or fair value																					
The Company has calculated the employee compensation cost using the intrinsic value method of accounting to account for options issued under the ESOS.																					
Where the company opts for expensing of the options using the intrinsic value of the options																					
- the difference between the employee compensation cost so computed and the employee compensation cost that shall have been recognized if it had used the fair value of the options shall be disclosed																					
- The impact of this difference: ✓ on profits ✓ EPS																					
Not Applicable																					
Option movement during the year (For each ESOS):																					
Particulars																		Details			
Number of options outstanding at the beginning of the year																		2,51,577			
Number of options granted during the year																		-			
Number of options forfeited / lapsed during the year																		(999)
