Terms and References

- a) **Arm’s Length Basis:** Terms will be treated as on ‘Arm’s Length Basis’ if the commercial and key terms are comparable and are not materially different with similar transactions with non-related parties considering all the aspects of the transactions such as quality, realizations, other terms of the contract, etc. In case of contracts with related parties for specified period / quantity / services, it is possible that the terms of one-off comparable transaction with an unrelated party are at variance, during the validity of contract with related party. In case the Company is not doing similar transactions with any other non- related party, terms for similar transactions between other non-related parties of similar standing can be considered to establish ‘arm’s length basis’. Other methods prescribed for this purpose under any law can also be considered for establishing this principle.

- b) **Ordinary Course of Business:** Transactions with related parties will be considered in ordinary course if they are entered in pursuance of the business objective of the Company and necessary for Company's operations or related financial activities, including the fixed assets transactions and pursuant to the objects of the Company.
- c) **Materiality:** The materiality of any RPT will be ascertained as per the thresholds prescribed under the Act or the Listing Regulations, whichever is lower:
- (i) **Materiality threshold under the Act**
A transaction with a related party shall be considered material if it exceeds threshold as prescribed under section 188 of the Act read with Rules made thereunder or any subsequent amendment thereto.
