UltraTech

THERMOCON +

Cracks on reputation are irreparable.

Monolithic landmark projects are great opportunities to showcase our competence and build an enduring reputation.

But such projects also run the risk of thermal cracking that can cause irreparable damage to our hard earned reputation.

Current solutions to avoid thermal cracks are cumbersome and demand constant supervision. Lack of control on the process causes high anxiety and poses huge professional, legal and reputational risk.

Introducing

UltraTech THERMOCON PLUS

An amazing concrete that protects the structures from thermal cracking.

UltraTech ThermoCon Plus has a unique formulation that restricts the core temperature within prescribed limits to prevent thermal cracks. **UltraTech ThermoCon Plus** also offers scientific monitoring of the core temperature for complete assurance and peace of mind.

**Why settle for the ordinary,
when you can build the extraordinary!**

UltraTech

THERMOCON +

Advantages:

- Prevention of thermal cracks
- No rapid loss of workability of concrete
- Lower placement temperature of concrete
- End-to-end solution

Technical Specifications:

- Differential temperature <math><20^{\circ}\text{C}</math>
- Core temperature <math><70^{\circ}\text{C}</math>

Application Areas:

- Mass foundations, rafts or structures with very high grade of concrete
